Honorable Ronald L. Jones
Chief Examiner of Public Accounts
Montgomery, Alabama 36130

Dear Sir:

Under the authority of the *Code of Alabama 1975*, Section 41-5-21, I submit this report on the results of the audit of the Morgan County Commission, Morgan County, Alabama, for the period October 1, 2009 through September 30, 2010.

Sworn to and subscribed before me this
the 2 day of May, 2012.

Mark C. Collins
Notary Public

Respectfully submitted,

Richard Camp
Examiner of Public Accounts

SUMMARY

**Morgan County Commission
October 1, 2009 through September 30, 2010**

The Morgan County Commission (the "Commission") is governed by a five-member body elected by the citizens of Morgan County. The members and administrative personnel in charge of governance of the Commission are listed on Exhibit 18. The Commission is the governmental agency that provides general administration, public safety, construction and maintenance of county roads and bridges, sanitation services, health and welfare services and educational services to the citizens of Morgan County.

This report presents the results of an audit the objectives of which were to determine whether the financial statements present fairly the financial position and results of financial operations and whether the Commission complied with applicable laws and regulations, including those applicable to its major federal financial assistance programs. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States as well as the requirements of the Department of Examiners of Public Accounts under the authority of the *Code of Alabama 1975*, Section 41-5-14.

An unqualified opinion was issued on the financial statements, which means that the Commission's financial statements present fairly, in all material respects, its financial position and the results of its operations for the fiscal year ended September 30, 2010.

Tests performed during the audit did not disclose any significant instances of noncompliance with applicable state and local laws and regulations.

The following officials/employees were invited to an exit conference to discuss the contents of this report: John Glasscock, former Chairman of the County Commission; Syble W. Atkins, retired Administrator of the County Commission; and County Commissioners: Jeff Clark, Kenneth Livingston, Greg Abercrombie, and Don Stisher. The following individuals attended the exit conference held at the office of the Morgan County Commission: John Glasscock, former chairman; Commissioners: Jeff Clark, Greg Abercrombie and Don Stisher; and representatives from the Department of Examiners of Public Accounts: Randy O'Bannon, Audit Manager and Richard Camp, Examiner of Public Accounts. The contents of the report were also discussed via telephone with the following Commissioner: Kenneth Livingston.

Independent Auditor's Report

Independent Auditor's Report

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Morgan County Commission, as of and for the year ended September 30, 2010, which collectively comprise the basic financial statements of the Morgan County Commission as listed in the table of contents as Exhibits 1 through 11. These financial statements are the responsibility of the Morgan County Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Morgan County Commission, as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2012 on our consideration of the Morgan County Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying Management's Discussion and Analysis (MD&A) and the Schedules of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual and the Schedule of Funding Progress (Exhibits 12 through 16) are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Morgan County Commission's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards (Exhibit 17) as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

*Management's Discussion and Analysis
(Required Supplementary Information)*

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Morgan County Commission's annual financial report presents our discussion and analysis of the Commission's financial performance during the fiscal year that ended on September 30, 2010. Please read it in conjunction with the Commission's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The Commission's total net assets decreased by \$2,111,557.50 over the course of the year's operations. Net assets of our business-type activities increased by \$404,967.20 (or approximately 17.20%), while the net assets of our governmental activities decreased by \$2,516,524.70 (or 6.41%)
- In the County's governmental activities, expenses increased by \$1,316,350.00 or approximately 3.65%), while revenues decreased by \$902,737.00 (or approximately 2.52%).
- In the County's business-type activities, operating expenses decreased by 1.4%, while operating revenues increased by approximately .60%
- The General Fund used \$1,673,395.00 in prior year reserves to finance current year programs. The Gasoline Tax Fund reserve decreased by \$115,176.00. The Public Buildings, Roads, and Bridges Fund reserve amount increased by \$80,039.00.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts--*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the Commission.

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the Commission's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the Commission government, reporting the Commission's operations in *more detail* than the government-wide statements.
 - --The *governmental funds* statements tell how *general government* services like public safety were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short-* and *long-term* financial information about the activities the government operates *like businesses*, such as the environmental services.
- *Fiduciary fund* statements provide information about financial relationships - like the District Attorney and Worthless Check Funds - in which the Commission acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

**Figure A-1
Required Components of
Morgan County Commission's Annual Financial Report**

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-2 summarizes the major features of the Commission’s financial statements, including the portion of the County government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

**Figure A-2
Major Features of Morgan County’s Commission’s Government-wide and
Fund Financial Statements**

	Fund Financial Statements			
	Government-Wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire County government (except fiduciary funds)	The activities of the County that are not proprietary or fiduciary, such as public safety, highways and roads, and health	Activities the County operates similar to private businesses: Environmental Services	Instances in which the County is the trustee or agent for someone else’s resources, such as the District Attorney and Worthless Check Fund
Required Financial Statements	<ul style="list-style-type: none"> • Statement of net assets • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net assets • Statement of revenues, expenses, and changes in net assets • Statement of cash flows 	<ul style="list-style-type: none"> • Statement of fiduciary net assets • Statement of changes in fiduciary net assets
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources measurement focus	Accrual accounting and economic measurement focus	Accrual accounting and economic measurement focus
Types of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the County’s funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses, during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid.

Government-wide Statements

The government-wide statements report information about the Commission as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Commission's *net assets* and how they have changed. Net assets - the difference between the Commission's assets and liabilities - is one way to measure the Commission's financial health, or *position*.

- Over time, increases or decreases in the Commission's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Commission you need to consider additional nonfinancial factors such as changes in the Commission's property tax base and the condition of the county's roads.

The government-wide financial statements of the Commission are divided into two categories:

- *Governmental activities* - Most of the Commission's basic services are included here, such as public safety, highways and roads, and general administration. Property taxes and state and federal grants finance most of these activities.
- *Business-type activities* - The Commission charges fees to customers to help it cover the cost of certain services it provides. The Commission's environmental services are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the Commission's most significant funds - not the Commission as a whole. Funds are accounting devices that the Commission uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The County Commission establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The Morgan County Commission has three kinds of funds:

- *Governmental Funds* - Most of the Commission's basic financial services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in near future to finance the Commission's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page that explains the relationship (or differences) between them.

- *Proprietary funds* - Services for which the Commission charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.
 - In fact, the Commission's *enterprise fund* (one type of proprietary fund) is the same as its business-type activities, but provide more detail and additional information, such as cash flows.
- *Fiduciary funds* - The Commission is responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The Commission is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All the Commission's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the Commission's government-wide financial statements because the Commission cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Net Assets. The Commission's combined net assets decreased between fiscal years 2009 and 2010 by approximately \$2.11 to \$39.54 million. Net assets for business-type activities increased 17.20% to \$2.76 million while net assets for governmental activities decreased by 6.41% to \$36.78 million.

Table A-1

Changes in net assets. The Commission's total revenues were approximately \$37.52 million. (See Table A-2). Approximately 39% of the Commission's revenue comes from property taxes, and 49 cents of every dollar raised comes from some type of tax. Another 28 cents comes from fees charged for services, and the majority of the remainder is state and federal aid.

Figure A-3
Morgan County Commission
Revenues for Fiscal Year 2009-2010

The total cost of all programs and services was approximately \$39.64 million. The Commission’s expenses cover a range of services with over 61% related to general government and public safety.

Figure A-4
Morgan County Commission
Expenditures for Fiscal Year 2009-2010

The Commission was not able to fully fund this year's cost through current year revenue which resulted in a decrease in net assets of \$2,111,558.00.

Table A-2 and the narrative that follows consider the operations of governmental and business-type activities separately.

Governmental Activities

The decrease in net assets is a result of expenditures exceeding actual revenues for the year.

Table A-3 presents the cost of each of the Commission’s five largest programs – general government, public safety, highways and roads, welfare, and culture and recreation – as well as each programs *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost shows the financial burden that was placed on the Commission’s taxpayers by each of these functions.

- The cost of all governmental activities this year was \$37.38 million, including depreciation expenses of \$2.58 million. The total cost increased from the prior year by \$1.32 million. This increase is mainly due to increases in payroll and benefits costs. The Commission did not give a cost-of-living raise in 2010 but did implement a 3% merit raise for which most employees were eligible.
- The net cost to taxpayers for these activities was \$21.79 million. Some of the costs were paid by:
 - Those who directly benefited from the programs (\$7.73 million), or
 - Other governments and organizations that subsidized certain programs with grants and contributions (\$7.87 million)
- The Commission paid for the \$21.79 million “public benefit” portion with property taxes, and with other revenues such as sales taxes, and investment earnings and also with prior year reserves.

Table A-3
Net Cost of Morgan County’s Governmental Activities
(in millions of dollars)

	Total Cost of Services		Percentage Change	Net Cost of Services	
	<u>2009</u>	<u>2010</u>	<u>2009-2010</u>	<u>2009</u>	<u>2010</u>

Welfare	1.60	1.69	5.63%	.58	.76
Culture and Recreation	1.21	1.14	(5.79%)	.97	.95
Interest & Fiscal Charges	1.26	1.22	(3.17%)	1.26	1.22
Other	.76	.80	5.26%	.37	.41
Total	<u>\$36.06</u>	<u>\$37.38</u>	<u>3.66%</u>	<u>\$20.17</u>	<u>\$21.79</u>

Business-Type Activities

Revenues of the Commission’s business-type activities increased from the prior year by approximately \$13,308 while expenses decreased by approximately \$33,000.

FINANCIAL ANALYSIS OF THE COMMISSION'S FUNDS

As the Commission completed the year, its governmental funds reported a *combined* fund balance of \$15.14 million representing a decrease from the prior year's combined fund balance of \$16.54 million. Included in the year's total change in fund balance, is a decrease of \$1.67 million in the Commission's General Fund and a \$115,000 decrease in the Gasoline Fund. The county's Public Building Roads and Bridges Fund reported an increase of \$80,039 and other governmental funds reported an increase of \$306,304.

General Fund Budgetary Highlights

Over the course of the year, the County Commission revised the County budget several times. These budget amendments fall into categories:

- Amendments and supplemental appropriations approved shortly after the beginning of the year to reflect the actual beginning account balances (correcting the estimated amounts in the original budget).
- Changes made to account for the various grants which were awarded during the year.
- Increases in appropriations to prevent budget overruns.

With these adjustments, actual revenues of the major funds were approximately \$675,049 less than anticipated revenues and actual expenditures were approximately \$962,962 less than budgeted expenditures.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2010, the Commission had invested \$48.96 million in a broad range of capital assets for its governmental activities. (See Table A-4). This amount represents a net decrease (including additions and deductions) of \$.90 million or approximately 1.81% over last year. The decrease represents additions of fixed assets totaling \$1.68 million and depreciation expense of \$2.58 million.

The new animal control building was completed in FY 2010 and the new environmental services building will be complete in the beginning of FY 2011. The Commission plans to begin several capital projects beginning in fiscal year 2011 including a new courthouse parking lot and a new Neel Senior Center which will be funded through a grant from the Alabama Department of Economic and Community Affairs. More detailed information about the Commission's capital assets is presented in Note 5 to the financial statements.

Long-term Debt

At year-end, the Commission had \$24.94 million in bonds outstanding - a decrease of \$.24 million from last year - as shown in Table A-5. More detailed information about the Commission's long-term liabilities is presented in Note 11 to the financial statements.

Table A-5							
Morgan County Commission's Outstanding Long-Term Debt							
<i>(in millions of dollars)</i>							
	Governmental Activities		Business-Type Activities		Total		Total Percentage Change
	2009	2010	2009	2010	2009	2010	2009-2010

In FY 2010, the Commission issued General Obligation Warrants in the amount of \$3,085,000.00. The proceeds of this bond issued were used to refund old debt issues in the amount of \$2,710,000.00. The remainder of the proceeds will be used to finance various capital projects as determined by the Commission. The refunding of the old debt resulted in an economic gain of \$351,462.70.

CONTACTING THE COMMISSION'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Morgan County Commission, 302 Lee Street N.E., Decatur, AL 35602.

***Reconciliation of the Balance Sheet of Governmental Funds to the
Statement of Net Assets
September 30, 2010***

Total Fund Balances - Governmental Funds (Exhibit 3) \$ 15,137,053.76

Amounts reported for governmental activities in the Statement of Net Assets
(Exhibit 1) are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. These assets were added as net capital assets in the following amount: 48,963,620.75

Deferred issue costs are reported as current expenditures in the funds. However, deferred issue costs are amortized over the remaining bond issue period and are included in the governmental activities in the Statement of Net Assets.

	Current Assets	Noncurrent Assets	
Deferred Charges	\$ 30,019.14	\$ 399,906.04	429,925.18

Certain liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds. These liabilities at year-end consist of:

	Current Liabilities	Noncurrent Liabilities	
Warrants Payable	865,000.00	24,050,000.00	
Unamortized Premium	3,827.99	50,188.73	
Deferred Loss on Refunding	(2,570.00)	(21,845.00)	
Capital Leases Payable	294,673.87	382,929.59	
Compensated Absences	248,873.05	659,997.01	
Net OPEB Obligation		1,201,299.23	
Total Long-Term Liabilities	\$ 1,409,804.91	\$ 26,322,569.56	(27,732,374.47)

Accrued interest payable is not available soon enough to pay for the current period's expenditures, and therefore is not shown in the funds. (25,348.75)

Total Net Assets - Governmental Activities (Exhibit 1) \$ 36,772,876.47

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2010

Net Changes in Fund Balances - Total Governmental Funds (Exhibit 5) \$ (1,402,228.74)

Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:

Governmental funds report capital outlay as an expenditure. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay (\$1,682,525.98) was exceeded by depreciation expense (\$2,583,219.84) in the current period. (900,693.86)

Repayment of bond principal, including extinguishment of debt, is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and does not affect the Statement of Activities. 3,667,783.50

Some capital additions were financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of funding, but in the Statement of Net Assets, the lease obligation is reported as a liability and does not affect the Statement of Activities. (260,176.00)

Issuance of general obligation debt is reported as other financing sources in governmental funds and thus contributes to the change in fund balance. However, in the Statement of Net Assets, issuing long-term debt increase long-term liabilities and does not affect the Statement of Activities. (3,085,000.00)

Some items reported in the Statement of Activities do not require the use of current financial resources, and therefore are not reported as expenditures in the governmental funds. These items consist of:

Net Change in Premiums	\$	(16,872.87)	
Net Change in Deferred Charges		50,197.22	
Net Change in Deferred Amounts on Refunding		19,426.50	
Net Increase in Compensated Absences		(12,513.32)	
Net Increase in OPEB Obligation		(600,086.51)	
Total Additional Expenditures		(559,848.98)	(559,848.98)

Expenditures in the Statement of Activities that do not require the use of current financial resources such as accrued interest payable, are not reported as expenditures in the funds. 23,639.38

Change in Net Assets of Governmental Activities (Exhibit 2) \$ (2,516,524.70)

Notes to the Financial Statements

For the Year Ended September 30, 2010

Note 1 – Summary of Significant Accounting Policies

The financial statements of the Morgan County Commission (the “Commission”) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The Morgan County Commission is a general purpose local government governed by separately elected commissioners. Generally accepted accounting principles (GAAP) require that the financial statements present the Commission (the primary government) and its component units. Component units are legally separate entities for which a primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based on the application of the above criteria, there are no component units which should be included as part of the financial reporting entity of the Commission.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Commission. These statements include the financial activities of the primary government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the Commission. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Commission and for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Commission does not allocate indirect expenses to the various functions. Program revenues include (a) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Notes to the Financial Statements

For the Year Ended September 30, 2010

Fund Financial Statements

The fund financial statements provide information about the Commission's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds in the other governmental funds' column.

The Commission reports the following major governmental funds:

- ◆ **General Fund** – The general fund is the primary operating fund of the Commission. It is used to account for all financial resources except those required to be accounted for in another fund. The Commission primarily received revenues from collections of property taxes and revenues collected by the State of Alabama and shared with the Commission. Also, accounted for in the general fund is employee health insurance to self-insure the Commission against liability claims.
- ◆ **Gasoline Tax Fund** – This fund is used to account for the expenditures of the seven-cent state gasoline tax revenue for construction, improvement, maintenance, and supervision of highways, bridges, and streets.
- ◆ **Public Buildings, Roads and Bridges Fund** – This Fund is used to account for the expenditures of special county property taxes for building and maintaining public buildings, roads and bridges.

The Commission reports the following major enterprise fund:

- ◆ **Environmental Services Fund** – This fund is used to account for the cost of providing solid waste service to county residents.

The Commission reports the following fund types in the Other Governmental Funds' column:

Governmental Fund Types

- ◆ **Special Revenue Funds** – These funds are used to account for the proceeds of specific revenue sources (other than those derived from special assessments or dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Notes to the Financial Statements

For the Year Ended September 30, 2010

- ◆ **Debt Service Funds** – These funds are used to account for the accumulation of resources for, and the payment of, the Commission’s principal and interest on governmental bonds.
- ◆ **Capital Projects Funds** – These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

The Commission reports the following fiduciary fund types:

Fiduciary Fund Types

- ◆ **Private-Purpose Trust Funds** – These funds are used to report all trust agreements under which principal and income benefit individuals, private organizations, or other governments.
- ◆ **Agency Funds** – These funds are used to report assets held by the Commission in a purely custodial capacity. The Commission collects these assets and transfers them to the proper individual, private organizations, or other government.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to the general rule are charges between the government’s solid waste function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Notes to the Financial Statements

For the Year Ended September 30, 2010

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. General long-term debt issued and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Commission's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the Commission funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Commission's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Commission has not elected to follow subsequent private-sector guidance.

D. Assets, Liabilities, and Net Assets/Fund Balances

1. Deposits and Investments

Cash and cash equivalents include cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For purposes of the statement of cash flows, the proprietary fund type considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

State statutes authorize the County Commission to invest in obligations of the U. S. Treasury and securities of federal agencies and certificates of deposit.

Notes to the Financial Statements
For the Year Ended September 30, 2010

2. Receivables

Millage rates for property taxes are levied at the first regular meeting of the Commission in February of each year. Property taxes are assessed for property as of October 1 of the preceding year based on the millage rates established by the County Commission. Property taxes are due and payable the following October 1 and are delinquent after December 31. Amounts receivable, net of estimated refunds and estimated uncollectible amounts, are recorded for the property taxes levied in the current year. However, since the amounts are not available to fund current year operations, the revenue is deferred and recognized in the subsequent fiscal year when the taxes are both due and collectible and available to fund operations.

Receivables due from other governments include amounts due from grantors for grants issued for specific programs and capital projects.

Receivables in enterprise funds consist primarily of amounts due from customers who are charged fees for services provided by the Commission.

Receivables from external parties are amounts that are being held in a trustee or agency capacity by the fiduciary funds.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Certain general obligation warrants, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate accounts and their use is limited by applicable bond covenants. The debt service funds are used to segregate resources accumulated for debt service payments.

Notes to the Financial Statements
For the Year Ended September 30, 2010

5. Capital Assets

Capital assets, which include property, equipment, and infrastructure assets (e.g., roads, bridges, water and sewer systems, and similar items), are reported in the applicable governmental and business-type activities columns in the government-wide financial statements. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Major outlays of capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Depreciation on all assets is provided on the straight-line basis over the assets estimated useful life. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Estimated Useful Life
Buildings	\$ 5,000	20 – 40 years
Equipment and Furniture	\$ 5,000	5 – 20 years
Roads	\$250,000	20 – 40 years
Bridges	\$ 50,000	20 – 40 years

The majority of governmental activities infrastructure assets are roads and bridges. The Association of County Engineers has determined that due to the climate and materials used in road construction, the base of the roads in the county will not deteriorate and therefore should not be depreciated. The remaining part of the roads, the surface, will deteriorate and will be depreciated. The entire costs of bridges in the county will be depreciated.

6. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Warrant premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Warrants payable are reported at gross with separate line items for the applicable warrant premium or discount. Warrant issuance costs are reported as deferred charges and amortized over the term of the related debt.

Notes to the Financial Statements

For the Year Ended September 30, 2010

In the fund financial statements, governmental fund types recognize warrant premiums and discounts, as well as warrant issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Compensated Absences

The Commission has a standard leave policy for its full-time employees as to sick and annual leave.

Annual Leave

For the first through the fourth year each employee is credited 13 days of annual leave. The fifth to ninth years an employee earns 16.25 days of annual leave per year. The tenth through fourteenth years an employee earns 19.50 days per year. The fifteenth through the nineteenth years an employee earns 22.75 days of annual leave per year. Upon completion of the nineteenth year, an employee is credited with 26 days per year and each year thereafter. Unused annual leave credits may be accumulated and carried over into successive calendar years up to a maximum aggregate of 240 hours. Upon separation or retirement, employees are paid for all accrued annual leave.

Sick Leave

Sick leave benefits with pay are provided for permanent full-time employees in the amount of 12 workdays per fiscal year. Sick leave benefits are accrued by all non-probationary permanent full-time employees at a rate of 1 workday per month of continuous employment and credited each month. Unused sick leave credits may be accumulated and carried over into successive fiscal years by employees. There is no limit on the number of hours an employee may accrue. All unused sick leave is forfeited upon separation and is not compensated to the employee.

Compensatory Leave

Compensatory leave is provided to permanent full-time employees in accordance with the Fair Labor Standards Act and is provided to permanent full-time employees to compensate for periods of work outside of normal working hours for which the employee has not received compensation. According to the Fair Labor Standards Act, employees should be paid for compensatory leave in excess of the maximum hours stipulated. Unused compensatory leave can be carried over 30 days, at the end of which, if not used is paid out at the overtime rate.

Notes to the Financial Statements

For the Year Ended September 30, 2010

8. Net Assets/Fund Equity

Net assets are reported on the government-wide and proprietary fund financial statements and are required to be classified for accounting and reporting purposes into the following net asset categories:

- ◆ **Invested in Capital Assets, Net of Related Debt** – Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets. Any significant unspent related debt proceeds at year-end related to capital assets are not included in this calculation.
- ◆ **Restricted** – Constraints imposed on net assets by external creditors, grantors, contributors, laws or regulations of other governments, or law through constitutional provision or enabling legislation.
- ◆ **Unrestricted** – Net assets that are not subject to externally imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Commission.

Fund equity is reported in the fund financial statements. Governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Note 2 – Stewardship, Compliance, and Accountability

Budgets

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds except the capital projects funds, which adopt project-length budgets. All annual appropriations lapse at fiscal year-end.

The present statutory basis for county budgeting operations is the County Financial Control Act of 1935 as amended by Act Number 2007-488, Acts of Alabama. According to the terms of the law at some meeting in September of each year, but in any event not later than October 1, the Commission must estimate the anticipated revenues, estimated expenditures and appropriations for the respective amounts that are to be used for each of such purposes. The appropriations must not exceed the total revenues available for appropriation plus any balances on hand. Expenditures may not legally exceed appropriations.

Budgets may be adjusted during the fiscal year when approved by the County Commission. Any changes must be within the revenues and reserves estimated to be available.

Notes to the Financial Statements

For the Year Ended September 30, 2010

Note 3 – Deposits

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the Commission will not be able to cover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Commission's deposits at year-end were entirely covered by federal depository insurance or by the Security for Alabama Funds Enhancement Program (SAFE Program). The SAFE Program was established by the Alabama Legislature and is governed by the provisions contained in the *Code of Alabama 1975*, Sections 41-14A-1 through 41-14A-14. Under the SAFE Program all public funds are protected through a collateral pool administered by the Alabama State Treasurer's Office. Under this program, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that financial institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC). If the securities pledged fail to produce adequate funds, every institution participating in the pool would share the liability for the remaining balance.

Note 4 – Receivables

On September 30, 2010, receivables for the Commission's individual major funds, other governmental funds and fiduciary funds in the aggregate are as follows:

	General Fund	Gasoline Fund	Public Buildings, Roads and Bridges Fund	Other Governmental Funds	Total Governmental Funds
<u>Governmental Funds</u>					
Intergovernmental	\$389,055.33	\$339,355.24	\$59,692.52	\$661,328.07	\$1,449,431.16
Other Receivables	47,850.45	241.40		6,700.30	54,792.15
External Parties	382,296.96	2,575.08		27,709.82	412,581.86
Total Receivables	\$819,202.74	\$342,171.72	\$59,692.52	\$695,738.19	\$1,916,805.17

Notes to the Financial Statements
For the Year Ended September 30, 2010

Environmental Services Fund	
<u>Proprietary Funds</u>	
Accounts Receivable	\$200,392.34
Total Receivables	<u>\$200,392.34</u>

	Agency Funds	Private-Purpose Trust Funds
<u>Fiduciary Funds</u>		
Intergovernmental	\$1,831,700.38	\$24,336.00
Total Receivables	<u>\$1,831,700.38</u>	<u>\$24,336.00</u>

Governmental funds report deferred revenues in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At September 30, 2010, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	Unavailable	Unearned
Ad Valorem Taxes	\$13,140,038.71	\$812,322.50
Grant Drawdowns Prior to Meeting All Eligibility Requirements		5,796.29
Total Deferred/Unearned Revenue for Governmental Funds	<u>\$13,140,038.71</u>	<u>\$818,118.79</u>

Notes to the Financial Statements
For the Year Ended September 30, 2010

Note 5 – Capital Assets

Capital asset activity for the year ended September 30, 2010, was as follows:

	Balance 10/01/2009	Additions/ Reclassifications (*)	Deletions/ Reclassifications (*)	Balance 09/30/2010
Governmental Activities:				
Capital Assets, not Being Depreciated:

Health	21,476.75
Welfare	188,628.97
Culture and Recreations	82,723.24
Total Governmental Activities	\$2,583,219.84

	Current Year Depreciation Expense
Business-Type Activities:	
Sanitation	\$163,413.63
Total Business-Type Activities	\$163,413.63

Note 6 – Defined Benefit Pension Plan

A. Plan Description

The Commission contributes to the Employees’ Retirement System of Alabama, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the various state agencies and departments.

Substantially all employees of the Commission are members of the Employees’ Retirement System of Alabama. Membership is mandatory for covered or eligible employees of the Commission. Benefits vest after 10 years of creditable service. Vested employees may retire with full benefits at age 60 or after 25 years of service. Retirement benefits are calculated by two methods with the retiree receiving payment under the method which yields the highest monthly benefit. The methods are (1) Minimum Guaranteed, and (2) Formula, of which the Formula method usually produces the highest monthly benefit. Under this method retirees are allowed 2.0125% of their average final salary (best three of the last ten years) for each year of service. Disability retirement benefits are calculated in the same manner. Pre-retirement death benefits in the amount of the annual salary for the fiscal year preceding death are provided to plan members.

Notes to the Financial Statements

For the Year Ended September 30, 2010

The Employees' Retirement System was established as of October 1, 1945, under the provisions of Act Number 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for State employees, State police, and on an elective basis to all cities, counties, towns and quasi-public organizations. The responsibility for general administration and operation of the Employees' Retirement System is vested in the Board of Control. Benefit provisions are established by the *Code of Alabama 1975*, Sections 36-27-1 through 36-27-103, as amended, Sections 36-27-120 through 36-27-139, as amended, and Sections 36-27B-1 through 36-27B-6. Authority to amend the plan rests with the Legislature of Alabama. However, the Legislature has granted the Commission authority to accept or reject various Cost-Of-Living-Adjustments (COLAs) granted to retirees.

The Retirement Systems of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for the Employees' Retirement System of Alabama. That report may be obtained by writing to The Retirement Systems of Alabama, 135 South Union Street, Montgomery, Alabama 36130-2150.

B. Funding Policy

Employees of the Commission, with the exception of full-time law enforcement officers, are required by statute to contribute 5 percent of their salary to the Employees' Retirement System. As of January 1, 2001, full-time law enforcement officers are required by statute to contribute 6 percent of their salary to the Employees' Retirement System. The Commission is required to contribute the remaining amounts necessary to fund the actuarially determined contributions to ensure sufficient assets will be available to pay benefits when due. The contribution requirements of the Commission are established by the Employees' Retirement System based on annual actuarial valuations. The employer's contribution rate for the year ended September 30, 2010 was 7.8 percent based on the actuarial valuation performed as of September 30, 2007.

C. Annual Pension Cost

For the year ended September 30, 2010, the Commission's annual pension cost of \$1,057,048.03 was equal to the Commission's required and actual contribution. The required contribution was determined using the "entry age normal" method. The actuarial assumptions as of September 30, 2009, the latest actuarial valuation date, were: (a) 8 percent investment rate of return on present and future assets, and (b) projected salary increases ranging from 7.75 percent at age 20 to 4.61 percent at age 65. Both (a) and (b) include an inflation component of 4.5 percent. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period as of September 30, 2009 was 30 years.

Notes to the Financial Statements
For the Year Ended September 30, 2010

The following is three-year trend information for the Commission:

Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
9/30/2010	\$1,057,048	100%	\$0
9/30/2009	\$1,012,113	100%	\$0
9/30/2008	\$ 892,461	100%	\$0

D. Funded Status and Funding Progress

As of September 30, 2009, the most recent actuarial valuation date, the plan was 78.2 percent funded. The actuarial accrued liability for benefits was \$33,804,303 and the actuarial value of assets was \$26,422,119, resulting in an unfunded actuarial accrued liability (UAAL) of \$7,382,184. The covered payroll (annual payroll of active employees covered by the plan) was \$13,069,171, and the ratio of the UAAL to the covered payroll was 56.5 percent.

The Schedule of Funding Progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Note 7 – Other Postemployment Benefits (OPEB)

A. Plan Description

The Morgan County Commission provides a single-employer defined benefit postemployment healthcare plan administered by Blue Cross and Blue Shield of Alabama. The plan provides medical, dental, and prescription drug insurance benefits to eligible retirees and their spouses. The *Code of Alabama 1975*, Section 11-91-1 through 11-91-8, gives authority to the Commission to establish and amend benefit provisions. The plan does not issue a stand-alone financial report.

B. Funding Policy

The Commission's contributions were on a pay-as-you-go basis as of September 30, 2010. The Commission does not anticipate setting up a trust fund within the next two years to fund its postemployment medical, dental, and prescription drug plans.

The Commission contributes 76% of the cost of current-year premiums for eligible retiree's medical insurance premiums for family coverage and 65% for single coverage. The Commission determines its contribution amounts annually during the budget hearings. For fiscal year 2010, the Commission contributed \$119,052.00 to cover approximately twenty-two participants. Plan members receiving benefits contribute \$260.00 for family coverage cost and \$180.00 for single coverage costs. For fiscal year 2010, total retired member contributions were \$55,597.69.

Notes to the Financial Statements
For the Year Ended September 30, 2010

C. Annual OPEB Cost

For fiscal year 2010, the Commission's annual other postemployment benefit (OPEB) cost (expense) for medical, dental, and prescription drug insurance was \$631,303.00. The Commission's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
9/30/2010	\$631,303	0%	\$1,262,606
9/30/2009	\$631,303	0%	\$ 631,303

D. Funded Status and Funding Progress

The funding status of the plan as of September 30, 2008, was as follows:

Actuarial Accrued Liability (AAL)	\$6,110,258
Actuarial Value of Plan Assets	\$0.00
Unfunded actuarial accrued liability (UAAL)	\$6,110,258
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.0%
Covered Payroll (Active Plan Members)	\$11,972,767
UAAL as a Percentage of Covered Payroll	51.0%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trends. Amounts determined regarding the funding status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will in future years present multiyear trend information that will show whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to the Financial Statements

For the Year Ended September 30, 2010

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial cost method used was the Projected Unit Credit Actuarial Cost Method. The actuarial assumptions included a four percent investment rate of return assumption and an annual healthcare cost trend rate of 11.0% initially, reduced by decrements to an ultimate rate of 5.0% after eight years. It was assumed that 90% of future retirees would elect medical, drug, and dental insurance coverage. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open period. The unfunded actuarial accrued liability (UAAL) is being amortized over thirty years.

Note 8 – Contingent Liabilities

The Commission is involved in litigation or threatened litigation in which the other parties are seeking either remedies to certain conditions or monetary compensation. An estimate of the range of potential loss cannot be made at this time.

Note 9 – Payables

On September 30, 2010, payables for the Commission's individual major funds and other governmental funds in the aggregate are as follows:

	Vendors	Due to Other Governments	Payroll Withholdings	Due to External Parties	Total Payables
Governmental Activities:					
General Fund	\$ 421,465.85	\$	\$	\$20,162.55	\$ 441,628.40
Gasoline Tax Fund	150,148.37				150,148.37
Public Buildings, Roads and Bridges Fund	61,845.29				61,845.29
Other Governmental Funds	590,575.71	299.88			590,875.59
Total Governmental Funds	\$1,224,035.22	\$299.88	\$	\$20,162.55	\$1,244,497.65
Business-Type Activities	\$ 178,915.35	\$	\$	\$	\$ 178,915.35

Notes to the Financial Statements
For the Year Ended September 30, 2010

Note 10 – Lease Obligations

Capital Leases

The Commission is obligated under certain leases accounted for as capital leases. Assets under capital leases totaled \$1,375,962.29 for governmental activities at September 30, 2010. If the Commission completes the lease payments according to the schedules below, which is the stated intent of the Commission, ownership of the leased equipment will pass to the Commission. The lease purchase contracts give the Commission the right to cancel the lease with 30 days written notice and payment of a pro rata share of the current year’s lease payments. The following is a schedule of future minimum lease payments under capital leases, together with the net present value of the minimum lease payments as of September 30.

Fiscal Year Ending	Governmental Activities
September 30, 2011	\$ 320,614.31
2012	133,608.88
2013	73,040.16
2014	47,706.40
2015	35,039.52
2016-2020	<u>169,357.68</u>
Total Minimum Lease Payments	779,366.95
Less: Amount Representing Interest	<u>(101,763.49)</u>
Present Value of Net Minimum Lease Payments	<u>\$ 677,603.46</u>

Note 11 – Long-Term Debt

The Commission issued General Obligation Bonds in fiscal year 2000 to provide funds for the construction of Trico Steel, a plant to be built in Morgan County with variable rates of 3.9 to 4.1 percent.

In fiscal 2000, Taxable General Obligation Warrants were issued with an interest rate of 2.8 percent for the repair and construction of county-owned public buildings.

In June 2003, General Obligation Warrants were issued with variable interest rates of 2.4 to 4.5 percent to refund the 1995 Bond Issue and for additional capital necessary to build the new court-ordered jail.

In August 2004, General Obligation Warrants were issued with variable interest rates of 4.4 to 5 percent to build the new jail.

Notes to the Financial Statements

For the Year Ended September 30, 2010

In June 2010, General Obligation Warrants were issued with variable interest rates of 2.0 percent to 3.25 percent to refund on a current basis the Outstanding Series 2000 General Obligation Warrants and the 2000 Taxable General Obligation Warrants and to provide funds for various capital projects.

The following is a summary of long-term debt transactions for the Commission for the year ended September 30, 2010:

	Debt Outstanding October 1, 2009	Issued/ Increased	Repaid/ Decreased	Debt Outstanding September 30, 2010	Amounts Due Within One Year
Governmental Activities					
<u>Warrants Payable:</u>					
General Obligation Series 2000	\$ 1,905,000.00	\$	\$(1,905,000.00)	\$	\$
General Obligation Series 2000	805,000.00		(805,000.00)

Add: Bond Premium Series 2003	1,404.36		(100.31)	1,304.05	100.31
Add: Bond Premium Series 2004	35,739.49		(1,786.97)	33,952.52	1,786.97
Add: Bond Premium Series 2010		19,407.05	(646.90)	18,760.15	1,940.71
Less: Deferred Loss on Refunding	(4,988.50)	(25,700.00)	6,273.50	(24,415.00)	(2,570.00)
Warrants Payable, Net	25,182,155.35	3,078,707.05	(3,316,260.68)	24,944,601.72	866,257.99
Capital Leases Payable	765,210.96	260,176.00	(347,783.50)	677,603.46	294,673.87
Estimated Liability for Compensated Absences	896,356.74	12,513.32		908,870.06	248,873.05
Net OPEB Obligation	601,212.72	600,086.51		1,201,299.23	
Total Governmental Activities Long-Term Liabilities	<u>\$27,444,935.77</u>	<u>\$3,951,482.88</u>	<u>\$(3,664,044.18)</u>	<u>\$27,732,374.47</u>	<u>\$1,409,804.91</u>
Business-Type Activities					
Estimated Liability for Compensated Absences	\$ 22,392.28	\$	\$ (1,608.94)	\$ 20,783.34	\$ 5,263.00
Net OPEB Obligation	30,090.28	31,216.49		61,306.77	
Total Business-Type Activities	<u>\$ 52,482.56</u>	<u>\$ 31,216.49</u>	<u>\$ (1,608.94)</u>	<u>\$ 82,090.11</u>	<u>\$ 5,263.00</u>

Payments on the warrants payable that pertain to the Commission's governmental activities are made by the General Fund, Capital Projects Funds and Debt Service Funds.

The capital lease liability for governmental activities will be liquidated primarily by the Gasoline Tax Fund.

The compensated absences liability attributable to the governmental activities will be liquidated by several of the Commission's governmental funds. The majority of the liability will be liquidated through the Commission's General Fund and Gasoline Tax Fund. The remainder will be liquidated by other governmental funds.

Notes to the Financial Statements
For the Year Ended September 30, 2010

The following is a schedule of debt service requirements to maturity:

Fiscal Year Ending	General Obligation Warrants, Series 2003		General Obligation Warrants, Series 2004	
	Principal	Interest	Principal	Interest
September 30, 2011	\$ 600,000.00	\$ 425,190.00	\$	\$ 547,625.00
2012	620,000.00	405,690.00		547,625.00
2013	640,000.00	386,160.00		547,625.00
2014	660,000.00	365,360.00		547,625.00
2015	685,000.00	342,920.00		547,625.00
2016-2020	3,815,000.00	1,316,940.00	120,000.00	2,738,125.00
2021-2025	3,810,000.00	347,850.00	3,550,000.00	2,580,825.00
2026-2029			7,330,000.00	939,500.00
Totals	<u>\$10,830,000.00</u>	<u>\$3,590,110.00</u>	<u>\$11,000,000.00</u>	<u>\$8,996,575.00</u>

Bond Issuance Costs, Deferred Charges on Refunding and Premiums

The Commission has bond issuance costs as well as bond premiums in connection with the issuance of its 2003, 2004 and 2010 General Obligation Warrants. The issuance costs and bond premiums are being amortized using the straight-line method over the remaining life of the Warrants. There are deferred amounts on refunded debt (2010 Warrants) which are being amortized using the straight-line method over the remaining life of the debt and will be reported as an adjustment of interest expense.

	Issuance Costs	Deferred Amount on Refunding	Premiums
Total Issuance Costs, Deferred Amount on Refunding and Premium Amount Amortized In Prior Years	\$ 583,174.51 (128,224.77)	\$ 61,866.63 (31,178.13)	\$66,261.60 (9,710.70)
Balance Issuance Costs, Deferred Amount on Refunding and Premium Current Amount Amortized	454,949.74 (25,024.56)	30,688.50 (6,273.50)	56,550.90 (2,534.18)
Balance Issuance Costs, Deferred Amount on Refunding and Premium	<u>\$ 429,925.18</u>	<u>\$ 24,415.00</u>	<u>\$54,016.72</u>

Defeased Debt

In June 2010, the Commission issued \$3,085,000 in General Obligation Warrants, Series 2010 with interest rates ranging from 25 to 3.25% to refund and retire on a current basis \$1,765,000 of outstanding General Obligation Warrants, Series 2000 with interest rates ranging from 3.9% to 4.1% as well as \$805,000 in outstanding General Obligation Warrants, Series 2000 with interest rates of 2.8% and to provide additional funds for certain capital projects. The refunded warrants were scheduled to mature in fiscal year 2020. The net proceeds of \$2,595,700 were deposited in an irrevocable trust with an escrow agent to provide for the payments of the warrants which were refunded. As a result, the refunded warrants are considered to be defeased and the liabilities for those warrants have been removed.

The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$25,700.00. This difference will be amortized over the remaining life of the new debt which is the same as the life of the old debt. As a result of the current refunding, the Commission reduced its total debt service requirements by \$384,572.64, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$351,462.70.

Notes to the Financial Statements

For the Year Ended September 30, 2010

Note 12 – Risk Management

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission has general liability insurance through a commercial carrier. The Commission pays an annual premium based on the Commission's individual claims experience. Coverage is provided up to \$2,000,000.00 per claim for a maximum total coverage of \$6,000,000.00.

The Commission has workers' compensation insurance through the Association of County Commissions of Alabama (ACCA) Workers' Compensation Self Insurance Fund, a public entity risk pool. The premium level for the fund is calculated to adequately cover the anticipated losses and expenses of the Fund. Fund rates are calculated for each job class based on the current NCCI Alabama loss costs and a loss cost modifier to meet the required premiums of the Fund. Member premiums are then calculated on a rate per \$100 of estimated remuneration for each job class, which is adjusted by an experience modifier for the individual county. The Commission may qualify for additional discounts based on losses and premium size. Pool participants are eligible to receive refunds of unused premiums and the related investment earnings.

The Commission purchases commercial insurance for its other risks of loss, including property and casualty insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The Commission is self-insured with regard to employee health insurance. The Commission purchases insurance for claims in excess of the aggregate stop loss basis. The aggregate stop loss basis is determined annually based on the Commission's claim experience. An estimate of the claims liability is reported in the governmental funds and the proprietary fund. The entire long-term liability is included in the government-wide financial statements. These liabilities are based on estimates utilizing past experience.

Notes to the Financial Statements
For the Year Ended September 30, 2010

The schedule below presents the changes in claims liabilities for the past two years for the self-insured activity of employee health insurance.

Fiscal Years	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2008-2009	\$41,655.11	\$3,006,733.32	\$3,038,037.35	\$ 10,351.08
2009-2010	\$10,351.08	\$3,519,497.49	\$3,261,520.39	\$268,328.18

Note 13 – Interfund Transactions

Due To/From Other Funds

The amounts due to/from other funds at September 30, 2010, were as follows:

	Interfund Receivables			Totals
	General Fund	Gasoline Tax Fund	Other Governmental Funds	
<u>Interfund Payables</u>				
General Fund	\$	\$	\$30,631.08	\$ 30,631.08
Other Governmental Funds	549,282.09	110,000.00		659,282.09
Totals	<u>\$549,282.09</u>	<u>\$110,000.00</u>	<u>\$30,631.08</u>	<u>\$689,913.17</u>

Advances To/From Other Funds

	Advances From Other Governmental Funds
<u>Advances To:</u>	
General Fund	\$60,000.00
Total	<u>\$60,000.00</u>

Notes to the Financial Statements
For the Year Ended September 30, 2010

Interfund Transfers

The amounts of interfund transfers during the fiscal year ended September 30, 2010, were as follows:

	Transfers Out			Totals
	General Fund	Public Buildings, Roads and Bridges Fund	Other Governmental Funds	
<u>Transfers In:</u>				
General Fund	\$	\$1,360,342.00	\$ 426,539.22	\$1,786,881.22
Gasoline Tax Fund		2,307,660.00	221,000.00	2,528,660.00
Other Governmental Funds	2,993,746.96	172,493.00	494,706.90	3,660,946.86
Total	<u>\$2,993,746.96</u>	<u>\$3,840,495.00</u>	<u>\$1,142,246.12</u>	<u>\$7,976,488.08</u>

The Commission typically used transfers to fund ongoing operating subsidies and to transfer the portion from the General Fund to the Debt Service Funds to service current-year debt requirements.

Note 14 – Related Organizations

A majority of the members of the boards of the agencies listed below are appointed by the Morgan County Commission. The Commission, however, is not financially accountable, because it does not impose its will nor does it have a financial benefit or burden relationship with the agencies. Additionally, the agencies are not considered part of the Commission’s financial reporting entity. The agencies presented below are considered related organizations of the County Commission.

Related Organizations
Decatur-Morgan County Port Authority
Northeast Morgan County Water and Fire Protection Authority
West Morgan East Lawrence Water and Sewer Authority
State Products Mart Authority
Public Parks and Recreation Board
Morgan County Commercial Development District

***Notes to the Schedule of Expenditures
of Federal Awards
For the Year Ended September 30, 2010***

Note 1 – Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Morgan County Commission and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, ***Audits of States, Local Governments, and Non-Profit Organizations***. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the primary government financial statements.

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Morgan County Commission (the “Commission”) as of and for the year ended September 30, 2010, which collectively comprise the Commission’s basic financial statements and have issued our report thereon dated April 18, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purposes of expressing an opinion on the effectiveness of the Commission’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under ***Government Auditing Standards***.

This report is intended solely for the information and use of management, members of the Morgan County Commission, the Commission Chairman, the County Administrator, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

***Report on Compliance With Requirements That Could
Have a Direct and Material Effect on Each Major
Program and on Internal Control Over Compliance in
Accordance With OMB Circular A-133***

Independent Auditor's Report

Compliance

We have audited the Morgan County Commission's (the "Commission") compliance with the types of compliance requirements described in the ***OMB Circular A-133 Compliance Supplement*** that could have a direct and material effect on of the Commission's major federal programs for the year ended September 30, 2010. The Commission's major federal programs are identified in the Summary of Examiner's Results Section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Commission's management. Our responsibility is to express an opinion on the Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in ***Government Auditing Standards***, issued by the Comptroller General of the United States; and OMB Circular A-133, ***Audits of States, Local Governments, and Non-Profit Organizations***. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Commission's compliance with those requirements.

In our opinion, the Morgan County Commission complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2010.

***Report on Compliance With Requirements That Could
Have a Direct and Material Effect on Each Major
Program and on Internal Control Over Compliance in
Accordance With OMB Circular A-133***

Internal Control Over Compliance

Management of the Morgan County Commission is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Commission's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.
